The following questions refer to the places where you do some of your usual activities such as food shopping and exercising and what it is like to live in your neighborhood. Your answers to these questions will help us study if things about people's neighborhoods are related to their risk of getting heart disease or stroke. This knowledge may help us develop better ways to prevent cardiovascular disease. Remember that there are no right or wrong answers to these questions. We are interested in your opinions of what it is like to live in your neighborhood.

1. About how far from your home is the place (or group of places) where your household does most of its food shopping? Hand participant response card A.

How long have you lived in this neighborhood? Think of your neighborhood as the area within a 20 minute walk or about a mile from your home.

If one year or more, specify number of years (round to the nearest whole year) [NAYRS2]

If less than one year, specify the number of months (round to the nearest whole month) [NAMONS2]

Thank you very much for answering this questionnaire. It will help us understand what it is like to live in your neighborhood and how neighborhoods may affect people’s health.
