SECTION 2

Script: The eye refraction component of MESA is not a complete eye examination. We want to understand how well you see at a distance using your glasses or contact lenses if you wear them, measure the shape of your eyes and determine whether your distance vision could be improved. Before we begin, I would like to ask you a few questions.

1  Have you ever had laser vision correction or refractive surgery to treat near-sightedness or myopia?  
   ○ Yes  ○ No
   ○ lassur2
   ○ Don't know
   ○ Refused

1a  Which eye had the surgery to improve your distance vision?  
   ○ Right eye only
   ○ Left eye only
   ○ Both eyes  ○ rllassur2
   ○ Don't know
   ○ Refused
