COPD Assessment Test

The following questions are about issues that might be related to your breathing. For the first few questions, I’ll read two statements and you can answer, on a scale of zero to five, which of the two statements you more strongly agree with.

For the first question, zero means “I never cough” and five means “I cough all the time.” Where would you rate yourself between these two statements, on a scale of zero to five?

For each question below, select the number that best describes you currently:
